

Drawing a Miniature Garden

Activity for ages 6+. Adult supervision recommended.

This miniature bird on a watering can was created by South African artist Beth Freeman-Kane in 2019. It's not even an inch tall and only 1 ¼ inches long! **Below, use your imagination to draw a picture around the watering can of the garden it might care for.** Where would the bird build its nest? What flowers, fruits, and vegetables would you plant there? What insects would you see in your garden?
