

## See Yourself in STEM

Activity for ages 6+. Adult supervision recommended.

STEM is for everyone! Writing your answers on a separate piece of paper, use the story starters below to see yourself in STEM! Can you get creative and try the bonus challenges?

### Science

If I could use a telescope to look into space, I would want to see ...

*Bonus challenge: Imagine you are an astronomer. Write a short story about an exciting discovery you make in space!*

### Technology

If I could create my own video game, it would be ...

*Bonus challenge: Imagine you are a video game designer. Draw pictures of the characters in your video game!*

If I could build anything with construction toys (like LEGO or Lincoln Logs), I would build ...

*Bonus challenge: Imagine you are an architect. Write a letter to a friend describing an amazing new building you are designing!*

If I could follow a map to find a secret treasure box of toys, I would want it to be filled with ...

*Bonus challenge: Imagine you are a mapmaker. Draw a map that would help someone get to The National Museum of Toys and Miniatures.*
